

1000 Points Of Sales

YOPPI

The Automatic Company ®

Introduction

YOPPI is a leader company active in operating networks of advanced vending machines for hot drinks and snacks. Most of the vending machines work with coins, bills and/or electronic money. YOPPI also operates coffee and drinks dispensers in big companies which supply beverages to their employees free of charge. Besides, YOPPI is a distributor of top quality espresso coffee for office environment, and supplies to customers free of charge Italian espresso machines especially developed for its coffee.

YOPPI distributes through its high quality vending machines food and beverages both in private and public places, providing service and technical maintenance through its technical representatives 365 days a year.

YOPPI is also involved in sale and lease of innovative water coolers for office locations, and of vending machines to companies that want to operate the equipment by themselves.

Background

One of the founding partners is Dr. Michele Orzan, who has a long experience and family background in the vending machines field. His father started its vending business in Italy 40 years ago, and all its family members are active in this field. The other founding partner is Tekla Koncz, who learned everything about this industry in Italy, being personally on the field, besides attending vending related experiences around Europe and USA.

Tekla Koncz

- Worked at Coca-Cola (Italy)
- Vending machines experience in Italy

dr. Michele Orzan

- Member of the board of the Operators' Committee (European Vending Association) www.eva.be
- Vice-president of the Italian Chamber of Commerce in Hungary www.cciu.com

Results

OPERATION

The turnover and economic results of YOPPI HUNGARY Kft confirm its healthy planning and correct organisation.

The projected combined sales for the year 2002 exceed 600 millions of HUF, which will be reached with a healthy growth and a carefully planned investment increment.

The chart illustrates the combined turnover and pre-tax profit of the two Hungarian companies (Yoppi Hungary Kft, which operates the machines, and Alenis Hungary Kft, which rents the machines).

	Pre-tax profit	Turnover
Year 1999	25.797	325.740
Year 2000	16.043	417.157
Year 2001	34.397	531.583

1.000 HUF

Partnerships

The main partners in YOPPI's operation in Hungary are COCA-COLA and NESTLE', which provide the products and ingredients that fit our quality standards.

Both companies are at the same time suppliers and clients, which means also that the coffee vending machines in their Hungarian headquarters are operated by YOPPI.

The Equipment

MACHINES

YOPPI uses equipment that represents the best technology available in Europe today. Italy is the world's biggest producer of hot drink machines, and one of the biggest in snack machines. With hundreds of patents and exclusive solutions, Italian producers manage to deliver the best equipment for coffee and cappuccino.

Rhea Vendors, Omnimatic, Fas are some of the most respected names in Europe, and their equipment comply to the strictest quality and functional standards.

Our philosophy is based on ethics, and wherever we do business, we want to be trusted partners and good citizens. We manage our business

with highest moral principles, and we try to share it with all our respected partners. These values are essential to our long-

term success and are reflected in all of our relationships in the market and the community.
